OBJECTIVE:

To secure a challenging role in software development, leveraging my expertise in Java, Angular, and Spring Boot to contribute to an innovative team, drive growth, and stay updated with emerging technologies for advancing my career.

TECHNICAL SKILLS:

- **Programming Languages:** Java (Core Java, OOP concepts, Exception Handling, Multi-threading, Collections Framework, JDBC)
- **Frontend Technologies:** HTML, CSS, JavaScript, Angular, React.js
- **Backend Frameworks:** Spring Framework, Spring Boot
- **Database Systems:** MySQL, Hibernate (JPA)
- **Version Control Tools:** Git, GitHub
- **Development Practices:** Software Development Life Cycle (SDLC), RESTful API development, Unit Testing (JUnit)

TECHNICAL SUMMARY:

- Good understanding of **Core Java** concepts such as Object-Oriented Programming (OOP), Exception Handling, Multi-threading, Collections Framework, and JDBC.
- Basic knowledge of **HTML, CSS, JavaScript**, and exposure to modern frontend frameworks like **Angular** and **React.js**.
- Hands-on project experience using **Spring Boot** for backend development and working with **MySQL** for database operations.
- Familiar with **Git** and **GitHub** for version control and collaborative development.
- Exposure to **Agile methodologies** (like Scrum) and awareness of the **Software Development Life Cycle (SDLC)**.
- Practiced **API integration** and performed **unit testing** using **JUnit** in academic or personal projects.

PROJECT DETAILS:

1. Laptops Store – Online E-commerce Platform

- Built a single-page application (SPA) using **Angular** to manage e-commerce functionalities with full CRUD operations

- Designed and integrated **RESTful API** endpoints with **Spring Boot** to optimize scalability and performance, enhancing the overall user experience.
- Ensured responsive design and fast load times with efficient frontend-backend integration.
- Technologies used: **Angular, Spring Boot, MySQL, RESTful APIs**

2. College Website – Management System

- Developed a College Management system with **Angular** for the front-end and **Spring Boot** for the back-end, utilizing **MySQL** for data storage.
- Implemented robust features for student registration, data retrieval, and management, ensuring a responsive UI and efficient data handling with CRUD operations.
- Technologies used: **Angular, Spring Boot, MySQL, RESTful APIs**

EDUCATION DETAILS:

Master of Computer Applications (MCA)

Omega PG College – 80% (2022–2024)

Bachelor’s Degree (B.Sc. in MPCs)

Pratibha Degree College – 82% (2019–2022)

Intermediate (MPC)

Sai Chaithanya Junior College – 88% (2017–2019)

Secondary School Certificate (SSC)

ZPHS – 78% (2017)

ADDITIONAL INFORMATION:

- **Certifications:**
 - **Java Programming:** Completed offline course from [Coding Hub Innovations].
 - **Web Development:** Completed a full-stack development course focused on Angular.

DECLARATION:

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
